

Coastline Community College
Military Program
Associate in Arts (AA) Degree
Major: Psychology

This major provides graduates with a greater understanding of the human mind and human behavior. Understanding of the human mind and behavior prepares graduates for jobs that require good communication skills. Some examples of jobs in this area include those in sales, marketing, case management and government welfare protection agencies. Servicemembers who work in the field of counseling and intervention will have military credit that count towards this major.

Courses denoted in **bold** are available online through Coastline's Military Program. Other course requirements may be met by coursework completed at another regionally accredited institution and ACE recommended credit.
